

PRESENTS!!!

We are pleased to present an ALL NEW laboratory power supply designed for powering vacuum tube circuitry and for other medium voltage applications. This is a COMPACT, light and portable unit featuring advanced HYBRID circuitry. The unit is fully transistorized except for the series regulators which are premium type long life tubes. HIGH EFFICIENCY and outstanding reliability are achieved in this unique Deltron design.

Price \$465

MODEL 2909....

- ☐ ALL OUTPUTS AVAILABLE SIMULTANEOUSLY
- ☐ 0.01% REGULATION
- ☐ 500 MICROVOLTS RIPPLE
- ☐ FRONT & REAR TERMINALS
- ☐ SEPARATE METERS FOR ALL OUTPUTS
- ☐ LOW COST RACK ADAPTERS

Simultaneous Outputs		
Type	Volts	Amps
Main DC	0-500	0-.2
Aux. DC	300	0-.05
Bias DC	0-150	0-.005
Fil. AC	6.3 CT	0-10

- ☐ Please send more information on your model 2909.
- ☐ Please have representative call.
